TAKE

SIMMONS LIVER REGULATOR OR MEDIiessiess, Depression, Sick Headache, Constipation, Nausea, Billousness, Dyspepsia, etc.

# SIMMONS

The reason that this medicine is successful in The reason that this headene is successful it for many cases with which remedies previously sried were unable to cope, is attributable to the tact that it is a medicine which reaches and the moves the causes of the various maladies to which it is adapted. Liver Complaints, Fever and Ague, etc., and Dyspepsia in its worst form yields to the potent power of the REGULATOR. It does not merely relieve the sufferer, but effect a permanent cure. SIMMONS LIVER REGU LATOR OR MEDICINE has been used success fully for a long time as a substitute for Quantum and Calomel, and the effects of this medicine are

It is prepared upon strictly scientific princi-It is prepared upon strictly scientific principles, a d, being an entirely Vegetable Compound, is a harmless but effectual medicine.

I is a well kn wn fact that food ill digested but imperfectly nourishes the system as it is only partially assimilated by the blod Sufferers with Dyspepsia whose circulation is impoverished and nerves weakened, experience a decided and rapid improvement in their physical and mental condition by the use of SIMMONS ILVER mental condition by the use of SIMMONS LIVER

REGULATOR

This mild Tonic, gentle Laxative and harmless Invigorant aids the process of digestion, which insures a development of all materials that are necessary to a healthy condition of b dy or mind. Clergymen, bankers, bookl 6 pers, editors and others who lead sedentary lives will find much relief from the frequent headaches, nervousness and constipation, resulting from want of exercise, by taking the REGULATOR. And persons living in unhealthy localities may avoid all billious attacks by taking this medicine, ecasionally to keep the Liver in healthy action.

Culture of Beans.

Country Gentleman.

grown, them and have seen them without the application of fertilizers. grown on soil which would not produce over ten or twelve bushels of rye, soil for the following one, especially and having used it for many years we weeds are its bane, and therefore clean | everywhere. culture is essential, and the necessary stirring of the soil exposes the greater proportion to the action of the sun

As stated above, beans will grow and produce fairly on poor soil, but are more remunerative when grown on better soil, but but such soil should have been made rich by previous culture. Manuring this crop acts more for prolonged and rank growth of plant and foliage than for grain, whereas the half-saturated soil tends to greater fruitfulness and earlier maturity. The keeping of weeds in subjection is much easier when the plowing is done some its effects, and the first cure for those pandful and Street, New York. These publications present the weeks in advance of planting, and then with cultivator and barrow, destroying them as they make their appearance, thus gning and better preparing the soit for a crop Harrowing or cultivating immediately before planting put the soils into fine or vietnas of wasted or prostrated energiese condition to receive the seed. The proper time for planting depends up on the season, as it is never safe to plant till danger of frost is past. They should be planted in rows, not less than two and one-half feet apart, and the hills not less than one foot apart; bowever, the distance should be regulated by the variety and habit of growth. Four or five beans to a hill are enough, and these may be put in drilla or by hand, and evenly

As to variety I need not suggest, as probably there is not much difference profit, unless it be from local circumstauces. Mediums and Blue Pods may be ripened and taken from the ground in time for wheat or other winter crops; also bringing good price with the many worthless sale on our reputation, we doesn't due the afflicted to warm them. Ask for DAY'S KIDNEY winter crops; also bringing good price PAD, and take no other. in market. The large seeded varieties are more uncertain and require a longer season. The cultivator should be started as soon as practicable after they are fairly out of the ground, and wherever necessary the hoe should be used. It is always best to cultivate beans when the foliage is not wet. Cultivate

sufficiently to keep down weeds.

Prejudice Kills. "Eleven years our daughter suffered on a bed of misery under the care of several of the best (and some of the worst) physicians, who gave her disease various names but no relief, and now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had poohed at for two years, before using it. We earnestly hope and gray that no one else will let their sick suffer as we did, on account of projudice against so good a medicine as Hop Bitters."-The Parents.-Telegram.

Leasing Farm Property.

It is certain that a large amount of farmingland in this country has passed into the bands of capitalists within the past few years, Many have purchased unimproved land in various states and territories, and others have This mild Tonic, gentle Laxative and harmless obtained improved farms by the forceclourse of mortgages. A few have managed their farms, but have little knowledge of the business have not been very successful; their property is taxed and they desire to derive an income from it. They see no better way to do it than to lease it to responsible tenants who will take proper care of it, but pay the rent promptly. At present many tenant farmers are coming to this country from Great It should be used by all persons, old and young and no family can afford to be without it, and by being kept ready for immediate resort, will save many an hour of suffering and many a dollar in time and doctor's bills.

Brittin who would like to rent farms far a long term of years. There are also many young men who "would be glad to avail themselves of the opportunity to rent farming land on terms | acts directly upon the Liver, and satisfactory to themselves and land.

Renting land on shares is open to many grave objections. It presents tiveness, Headache. It assists dimunity to buy no Simmons Liver Regulator or too many temptations to tenants. It gestion, strengthens the system, Medicine u less in our engraved wrapper, with affords too little security to land own-'Red Z" trade mark, stamp and signature unbro. ers. It is generally very inconvenient for a landlord to be presented to di vide all the crops as they are harvest. SANFORD, 162 Broadway, N. Y. ed. As a rule, he is not well situated | FOR SALE BY ALL DRUGGISTS.

crops raised on them be fed out to The Daily Chronicle, stock. When a farm is worked on shares it is very difficult to do this. shares it is very difficult to do this. A cash rent, payable at definite times, is the most satisfactory to both parties of the contract. It allows the tenant to do as he pleases with the crops he raises, while the landlord is relieved of all the trouble in disposing of farm products. If the latter has se-St 00 curity for his rent, his farm than money invested in government

The great trouble in the past, in Yearly advertisements payable quarterly. All | leasing land on a cash rental, has other advertisements payable on demand after first | been in fixing the price. The rate of interest has fluctuated and has differered greatly different parts of the country. At present the rate of interest on government securities, regulates to a certain extent, the price paid for the use of capital in the form of money or land. It is 4 per cent net.
